About MCT's College of Education & Research

Manjara Charitable Trust a renowned trust in Maharashtra, was founded by India's distinguished administrator, Shri Vilasrao Deshmukh in 1988. It is a social welfare organization whose goal is the economic, social, political and cultural upliftment of the masses in Maharashtra by providing quality Education.

In keeping with the ideals of the Trust, MCT's College of Education & Research has for nearly four decades served the needs and interests of the people. The College is governed by the voices of many and is a shared responsibility of faculty, academic staff and students respectively. From a modest beginning and as a result of judicious application of limited resources, the College has grown into an eminent Teacher Education Institution within one and a half decades. It has evolved into a point of intersection for myriad Local, Regional, National and International communities, each with the dynamic and widely varied perceptions, interests, demands and contribution. It stands in the midst of an ever -expanding revolution in communication, which influences fundamentally the technology and practices in Education

About the National Seminar

In the present era of globalization, the academic institutions have to devise strategies for survival and growth and redesign their systems so as to make them flexible, cost effective and relevant to the market Economy. Education and Training are the key elements to move our society towards sustainability. The economic dimension is indispensable in sustainability. Economizing of resources means using of resources in the best possible way and to their fullest capacity. Economizing resources of Education is the need of the hour for sustainable development. To strengthen its education as a substantive function, and to mobilize resources of education for sustainability in environmental, social and economic dimensions requires the participation of Managers, Teachers, Students and other Stakeholders. The economizing indicators approached as resources are Learner, Curriculum, Infrastructure, Faculties, and Teaching Learning etc in an optimal way, where everyone is benefited

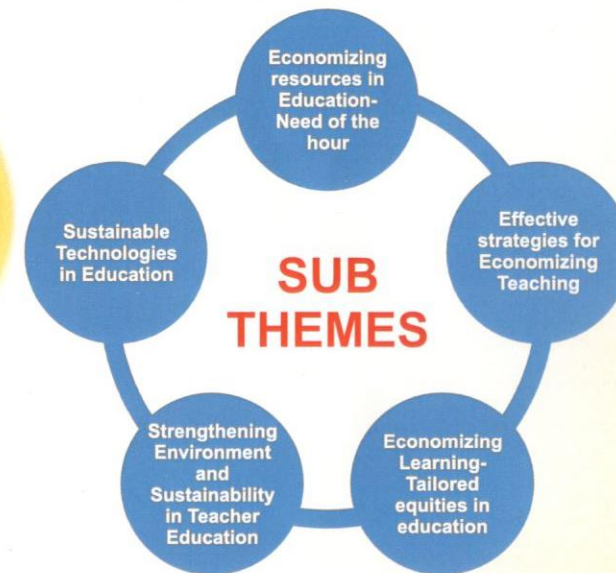

Objectives:

1. To develop awareness about economizing resources for optimum educational outcomes.
2. To adopt effective strategies for Economizing Teaching.
3. To develop interest in effective resource

4. To sensitize the demands of the knowledge based society for equities in education.
5. To develop interest in the effective use of sustainable Technologies in teaching learning activities.
6. To study the significance of strengthening Environment and Sustainability in Teacher Education
